SCULPTED BY WILLIAM BRAND

William Brand (1963) - an award-winning architect and sculptor - is widely recognized for his imaginative and daring sculptural lighting.

In 1989, he founded his own atelier Brand van Egmond to create without restraint. His lighting sculptures, often perceived as art pieces, grace the finest residences, exclusive boutiques, stunning hotels and leading art exhibitions.

We welcome everybody who wants to see our designs, or would like personal advice from William Brand and his team, to our office and atelier in Naarden, The Netherlands.

BRAND VAN EGMOND

Sculpted by William Brand

"Every design of new collections follows the same sequence. After the first sketches, I quickly move towards the atelier and start working with new materials and shapes by myself. Of every collection I can still feel every curve and twist literally in my hands."

What begins as a simple sketch with William's pen, results in a sculptural lighting object with character, crafted exclusively by hand and with love by skilled artisans, under the direct supervision of William. All creations differ from each other and have little marks of handcrafting, like the colorful patina, grinding structure, little glass characteristics, which give each piece its individual charm.

Carefree bliss while blowing bubbles and being mesmerized by the soothing forms and colours. An Eden of lightness and beauty, innocent and unspoiled. The exploration of freedom and experimentation with materials, with almost childlike delight, resulted into the Bubbles collection.

William Brand

designer / owner

William was trained as an artist and an architect. He graduated at the Utrecht School of Arts.

As an award-winning furniture designer he for many years designed buildings and interiors for fashion brands, including the headquarters of BRAND VAN EGMOND. His interior designs are always minimalist, in contrast to his lighting designs which have a powerful sculptural presence. He considers his lighting objects to be “the cherry on the cake”. His way of working is quite specific. Immediately after defining the concept he starts working in the workshop like a sculptor; experimenting and crafting while having the object grow in his hands, often with unexpected results. Therefore the journey is just as exciting and important as the destination.

* Due to the unique process of creating the finishes Brass Burnished, Brass Aged, Nickel Aged, Copper Burnished and Bronze dark patina finish lights that will be combined in the same space should be ordered at the same time, in order to prevent lights from looking slightly different from each other. Colours and finishes may appear slightly different by viewing in print or on screens.

Architects and other co-creatives are invited to discover the endless possibilities of customising our lighting sculptures.

We hope to inspire you through the different colours and forms of various compositions, just as we enjoy being stimulated by your requests. William Brand's background in architecture gives him the insight to fully understand the demands and challenges of your work. Combined with his experience he is the perfect partner to translate your needs into handcrafted reality.

For our clients we not only customise to different dimensions, but also in different finishes: allowing for a truly personal lighting sculpture to be created.

The possibilities with our lighting sculptures are, in fact, limitless.

We would like to show some of the new possibilities.
