“The Book”

ITALIAN LIGHTING SCULPTURES

Da una piccola attività artigianale, l'azienda ha acquisito col tempo visibilità e credibilità in campo nazionale e soprattutto internazionale, portando i prodotti ad essere conosciuti, apprezzati e venduti in tutto il mondo.

L'obiettivo di Knikerboker è poter soddisfare ogni esigenza del cliente mantenendo sempre alto il livello di qualità e la sua caratteristica principale di “absolutely Hand Made”.

From a small handicraft activity, the company eventually acquired visibility and credibility nationally and mostly internationally, bringing the products to be known, valued and sold in all the world.

Knikerboker's purpose is to be able to satisfy every client's need maintaining the quality level always high and its principal feature of “absolutely Hand Made”.

Als flexible kleine Manufaktur hat das Unternehmen im Laufe der Zeit Visibilität und Glaubwürdigkeit im nationalen aber vor allem im internationalen Markt erlangt. Das hat dazu beigetragen, dass die Produkte weltweit bekannt, geschätzt und verkauft werden.

Das Ziel von Knikerboker ist jede Anforderung der Kunden zu erfüllen. Hierbei ist es wichtig die Produktqualität und ihre wichtigste Eigenschaft “Absolutely Hand Made” beizubehalten.

PARACHUTE

L'eleganza e la raffinatezza della trama metallica si incontrano con l'intimità della luce calda, e dall'estro dell'hand-made italiano nasce la collezione Parachute, la nuova lampada da sospensione, connubio di illuminazione tra trama e ordito. L'intreccio di fili in ottone e in rame, combinati ad una fonte luminosa dall'aspetto retrò, creano un effetto iridescente e cangiante, dando vita a questo un tessuto lievemente stropicciato che sembra fluttuare con grazia aerodinamica in uno spazio ricco di sfumature di colore.

The elegance and refinement of metal texture meet the intimacy of warm light, and from the flair of Italian hand-made work Parachute collection borrows, the new pendant lamp, a lighting combination of warp and weft. The twist of brass and copper threads, combined with a retro-looking light source, create an iridescent and changing effect, giving life to this slightly wrinkled fabric that seems to float with aerodynamic grace in a space full of colour nuances.

CHAPEAU !

Esistono mille modi di portare un cappello, è un accessorio che a seconda della forma, colore e posizione in cui lo si indossa dona personalità e un tocco di fascino.

Ripercorrendo la strada che unisce moda, design e illuminazione, la lampada da parete Chapeau prende ispirazione dalla versatilità di questo capo: un disco a led proietta la luce verso un foglio di lamiera piegato e rifinito da mani esperte con preziose finiture. L'artigianalità rende questo oggetto unico e personalizzato, ricavando dall'inclinazione della piegatura infiniti giochi di luce ed ombra, arricchendo la stanza in cui si trova proprio come un copricapo stravolge in maniera sempre diversa il look di chi lo porta.

Et voilà: ecco che calza alla perfezione!

There are a thousand ways to wear a hat; it is an accessory that, depending on the shape, colour and position in which it is worn, gives personality and a touch of charm.

Going down the road that connects fashion, design and lighting, Chapeau wall lamp takes its inspiration from the versatility of this garment: a led disc projects light onto a sheet metal folded and finished by expert hands with precious finishes. The craftsmanship makes this object unique and customised, obtaining from the inclination of the folding infinite plays of light and shadow, enriching the room in which it is placed just as a cap always changes the look of the wearer.

Et voilà: it fits perfectly!

POIS

Dall'aspetto minimalista e moderno,
Pois è un piccolo punto contrapposto per finitura e dimensione
al disco di alluminio al quale è ancorato.
Un grande classico della moda, sfruttato dagli stilisti perché in grado
di cambiare le sorti di un capo d'abbigliamento,
allo stesso modo questa nuova lampada si adatta all'ambiente in cui
è inserita, arredando e donando ad ogni stanza originalità e
un tocco pop!

With its minimalist and modern appearance,
Pois is a small dot contrasting in finish and size with the aluminium
disc to which it is anchored.
A great fashion classic, exploited by fashion designers because
it can change the fate of a garment,
in the same way this new lamp adapts to the environment in
which it is placed,
furnishing and giving every room originality and a touch of pop!

LE GIGINE

L'acciaio si restringe per diventare più grande!

GIGINE nascono da una rivisitazione nelle dimensioni della lampada Gi.Gi:

la taglia diventa più piccola e si moltiplica formando una cascata luminosa che si sviluppa su diverse altezze. Ciascun elemento sembra galleggiare nell'aria, adattandosi a grandi spazi e impreziosendo l'ambiente grazie alle diverse finiture disponibili.

Non solo, la novità dell'anno 2022 consiste l'introduzione della versione da parete, con l'aggiunta di nuovissime finiture come l'antracite metallico e il purple red.

The steel gets smaller to get bigger!

GIGINE were born from a reinterpretation in the dimensions of the Gi.Gi lamp:

the size becomes smaller and multiplies forming a luminous cascade that develops on different heights.

Each element seems to float in the air, adapting to large spaces and embellishing the environment thanks to the different finishes available. In addition, new for 2022 is the introduction of a wall-mounted version, with the addition of brand new finishes such as metallic anthracite and purple red.

G|●G|

L'acciaio appare come un materiale statico e inutile finché viene plasmato e ripiegato su se stesso creando al suo interno, come uno scrigno che si schiude svelando il tesoro o un'ostrica con un luminoso segreto, una luce che irradia l'ambiente circostante.

Steel looks like an useless and static material until it is shaped and folded on itself creating inside, as a casket which burst revealing its treasure or an oyster with a lighting secret, a light which radiates the surroundings.

CURVE

In questa collezione, forme concave e convesse di una leggera striscia di acciaio si alternano creando morbide curve. Una linea di luce, composta da una barra a led, ne illumina i lati in cui si ripiega su se stessa dando vita all'acciaio e alle sue diverse finiture.

La collezione 2022 comprende la nuova versione lampada in cui la striscia si assottiglia, e i lati vengono illuminati da una ministar led collocabile in qualunque posizione della struttura stessa. In questo modo nasce una lampada da tavolo, da parete e da sospensione (modulabile) in cui le forme e la luce si alternano morbidamente dando vita nello spazio a un oggetto immobile.

In this collection, concave and convex shapes of a steel strip alternate to create soft curves. A line of light, consisting of a LED bar, illuminates the sides where it folds back on itself, bringing the steel and its different finishes to life.

The 2022 collection includes the new lamp version in which the strip becomes thinner, and the sides are illuminated by a LED ministar that can be placed in any position of the structure itself. The result is a table lamp, wall lamp and suspension lamp (modular) in which shapes and light alternate softly, giving life to an immobile object in space.

DOPPIOZERO

Una luce che nasce dalla sovrapposizione di due dischi in acciaio dal design unico ed essenziale.

Come un corpo celeste che si interpone ad una sorgente luminosa durante l'eclisse, questa lampada da parete e da plafone crea un'illuminazione completamente direzionabile grazie ad uno snodo orientabile a 360°.

A light born from the overlapping of two steel discs with a unique and essential design.

Like a celestial body that interposes itself to a light source during the eclipse, this wall and ceiling lamp creates a fully adjustable lighting thanks to a 360° swivel joint.

BUCHI ZERO

"Buchi Zero"

rappresenta il punto di partenza e il punto di arrivo di un'intera collezione, da cui questa lampada da parete prende il nome. Con il suo design essenziale, la luce risalta al di là dell'ombra di un disco d'alluminio, creando una vera e propria eclissi luminosa.

"Buchi Zero", con il suo richiamo allo spazio infinito, si inserisce perfettamente nella collezione "Buchi" e ne è la conclusione ideale.

"Buchi Zero"

represents the starting and arrival point of an entire collection, from which this wall lamp takes its name. With its essential design, light stands out beyond the shadow of an aluminium disk, creating a real light eclipse. "Buchi Zero", with its reference to infinite space,

fits perfectly into the "Buchi" collection and it's the ideal conclusion.

DO NOT DISTURB

Stiamo creando...

Non poniamo mai limiti a nuove idee, dando libero sfogo alla nostra indole ispiratrice:
creare nuovi concetti che diffondano il nostro lume artistico.
Nasce DO NOT DISTURB, un'emblematica visione di una lente d'ingrandimento con led a
doppio spettro.
Niente ombre... "focus on light"!

We are creating...

We never put limits to new ideas, since we give loose to our inspirational character:
to create new concepts that spread our artistic light.
DO NOT DISTURB rises, an emblematic vision of a magnifying glass with double spectrum led.

SCHEGGE

Schegge sono i frammenti luminosi,
acuminati e taglienti, generati da una vera e propria esplosione creativa
che formano lampade dal design moderno per comporre e completare spazi d'arredo contemporaneo.
Con le loro linee sottili, sono lame di luce che non solo contribuiscono ad un progetto di illuminazione interna, ma diventano
un elemento centrale dello spazio circostante.

Schegge are the luminous,
sharp and edgy fragments generated by a real creative explosion
that form modern design lamps to compose and complete contemporary furnishing spaces.
With their thin lines, they are blades of light that not only contribute to an interior lighting project,
but become a central element of the surrounding space.

CRASH

Sculture a forma di satelliti costituite da acciaio battuto a mano, color ghiaccio, l'aspetto totalmente monocromatico in foglia d'oro, argento e bianco brillano nella loro luce riflettente. Una luce monolito che raggiunge l'apice della sua forma grazie alla manipolazione esperta e insostituibile che firma e controfirma il marchio KNIKERBOKER.

Satellites-sculptures shaped malleable hand-wrought steel, color-icy, the total look monochromatic in gold leaf, silver and total white shine with its reflecting light. A monolith light that reaches the apex of its shape thanks to the skilful irreplaceable craft manipulation who sign and countersign the brand KNIKERBOKER.

CRASH TUBE

La celebre e iconica collezione Crash viene reiventata e, al foglio di lamiera piegato a mano e impreziosito da diverse finiture, viene accostato il design semplice e lineare di un tubo contenente una barra a led che illumina la superficie irregolare della lampada.

The famous and iconic Crash collection has been reinterpreted and the hand-folded sheet metal, embellished with different finishes, has been combined with the simple and linear design of a tube containing an LED bar that illuminates the irregular surface of the lamp

STRISCIA

Striscia è un semplice tubo montato a parete e sospeso da un cavo sottile, un progetto che si è evoluto da una commissione per illuminazione costum. Con la luce distribuita per tutta la lunghezza dello stelo in acciaio illumina in modo omogeneo ogni ambiente, anche il più piccolo, in cui si inserisce alla perfezione grazie alla sua sottilissima struttura.

Striscia is a simple tube mounted on the wall and suspended by a thin cable, a design that has evolved from a costum lighting commission. With the light distributed along the entire length of the steel stem, it illuminates every room homogeneously, even the smallest, into which it fits perfectly thanks to its extremely thin structure.

A TEMPO PERSO

Con un'attenta lavorazione artigianale, solidi ma leggeri pezzi di alluminio, cambiano consistenza trasformandosi in morbide onde che, come quelle marine, sembrano muoversi delicatamente sulla riva al soffio del vento e si riempiono di luci e colori per poi ritirarsi su se stesse.

With a careful craftsmanship, solid but thin pieces of aluminium change consistency turning into smooth waves that, like the marine ones, seem to softly move on the shore to the wind blow and fill with lights and colors and then retreat on themselves.

BUCHI

Diverse forme, colori e dimensioni, spazio infinito e intrigante, di cui noi vediamo una piccola parte: il cielo che si illumina di stelle e scintille durante la notte e assume così diverse sfaccettature di colore.

Different shapes, colors and dimensions, endless and intriguing space, of which we see a small part: the sky that lights up with stars and sparks during the night and gathers different shades of color.

BUCOLA

Una cupola d'acciaio, con la sua simmetria eterea e infinita, incontra e abbraccia il cielo stellato e scintillante dalla precedente collezione Buchi.

Sotto la volta della cupola, la luce nasce e si diffonde uniformemente illuminando l'ambiente circostante con colori che vanno dal bianco al nero, arricchiti dai riflessi delle foglie d'oro, argento, rame e bronzo. E' dalla fusione tra le stelle accese della serie Buchi con il design perfetto della Cupola che nasce Bucola, la collezione di lampade disponibili nelle versioni da terra e da sospensione.

A steel dome, with its divine and endless symmetry, meets and envelopes the starry and glittering sky from the last collection Buchi.

Under the dome vault, the light burns and evenly spreads radiating the surrounding environment with colors ranging from white to black, enriched by reflections of gold, silver, copper and bronze leaves.

It is from the fusion between the bright stars of Buchi series with the perfect design of the Dome (Cupola, in italian), that Bucola borns, the collection of lamps available in floor and suspension versions.

HUE'

Ripiegata sinuosamente su se stessa quasi a formare un cilindro luminoso, con punte rivolte ai due poli.
Gli abbinamenti cromatici, quasi serici, uniscono tipologie di verniciature inusuali ed innovative,
dall'oro all'argento, dal rame al bronzo, con l'aggiunta del "total white", cromia essenziale ed elegante.

Sinuously curved on its own figure as lightful cylindric shapes, with both tips turned towards to the two poles.
Nearly silky chromatic couplings join together innovative and unusual paintings,
from gold to silver, from copper to bronze, with a dash of "total white", essential and smart color.

DES●AGN

“Dieci anni” di gioco fra passione e materia tagli di luce e ombre.
Knikerboker celebra così l’amore per il “des.agn” puro e essenziale,
“una lama che taglia una finestra verso il futuro”.

“Ten years” of game between passion and material cuts of light and shadows.
Knikerboker thus celebrates love for “des.agn” pure and essential
“a blade which cuts a window towards the future”.

STE•VEN

Ste.Ven è la lampada da parete che nasce dalla necessità di una illuminazione accogliente, brillante ma senza essere accecante, come la luce naturale.

La barra a led crea una rifrazione sulla lamiera a cui è ancorata, donando un'atmosfera suggestiva anche negli ambienti più piccoli grazie alle diverse combinazioni di colori.

Ste.Ven is the wall lamp that comes from the need for a cozy, bright but not blinding lighting, as the natural light. The led bar creates a refraction on the metal sheet to which it is anchored, giving a suggestive atmosphere even in the smallest environments thanks to the different color combinations.

SPIRALE

Con una forma singolare la spirale avvolge la luce tra le volute della sua lamina, trattenendola quasi a renderla immortale.

A seconda di come la si osservi, nella sua imponente geometria, allontana e avvicina giochi di luce ed ombre fondendo materia al surreale.

A unique spiryal form surrounds light with its luminous surfac, retaining and rendering it almost immortal.

Depending on your point of observation, its commanding geometric shape blends rays of light and shadows into surreal material.

SOLARIA

Linea concepita per conservare e alimentare attraverso la luce al mercurio le piante durante tutto l'anno solare, grazie a lampade dai bassi consumi energetici e un'illuminazione in grado di stimolare il processo di fotosintesi.

Line conceived to preserve and feed through mercury light the plants during the whole calendar year thanks to lamps with low energy consumption and a lighting able to stimulate photosynthesis process.

In caso di doppia finitura, il primo colore coincide con l'esterno, il secondo con l'interno.

Per esempio: foglia argento (esterno) bianco (interno)

Finiture speciali "a richiesta"

La finitura ruggine non è disponibile per tutte le collezioni.

La collezione "Confusione" può essere realizzata in filo di ottone o rame, a secondo del peso e della dimensione.

La stessa può essere verniciata nei colori: ottone, rame, nero opaco e total white.

In case of double finishing, the first color coincides with outside, the second one with inside.

For example: silver leaf (outside) white (inside)

Special finishings "on request"

Rust finish is not available for all the collections.

"Confusione" collections can be realized in brass or copper wire based on weight and size.

The collection can be painted in: brass, copper, matt black and total white.

Bei einer doppelten Oberflächenbehandlung ist die erste Farbe für die Außenseite

und die zweite für die Innenseite der Leuchte bestimmt.

Zum Beispiel: Blattsilber (außen) weiß (innen)

Sonderausführungen "auf Anfrage"

Nicht alle Kollektionen sind in Rostausführung lieferbar.

Die Kollektion "Confusione" kann je nach Gewicht und Größe aus Messing- oder Kupferdraht hergestellt werden.

Außerdem kann sie in folgenden Farben lackiert werden: Messing, Kupfer, Mattschwarz und Weiß.
